DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. ClaimS 1-9 are rejected under 35 U.S.C. 102(b) as anticipated by
r, in the alternative, under 35 U.S.C. 103(a) as obvious over
WO95/25757.

3. Applicants urge that the rac isomer leads to the polymerization
f a fraction of atactic polypropylene in examples 40-43 of the
r ference and therefore does not come within the scope of the
claimed isotactic polypropylene. However attention is directed to the
fact that applicants' argument in the absence of factual probative
vidence of applicants' conclusion it is given no weight. Furthermore
since applicants have not specified how much atactic polypropylene is
pr duc d th amount c uld b n gligible. Furth rm re not that th

instant claims are proper to the extent that if some atactic is present the claims are broad enough to accommodate for a negligible amount of atactic polypropylene to be present in said claims.

It has been held that where applicant claims a composition in terms of function, property or characteristic where said function is not explicitly shown by the reference and where the examiner has explained why the function, property or characteristic is considered inherent in the prior art, it is appropriate for the examiner to make a rejection under both the applicable section of 35 USC and 35 USC 103 such that the burden is placed upon the applicant to provide clear evidence that the respective compositions do in fact differ. *In re Best*, 195 USPQ 430,433 (CCPA 1977), *In re Fitzgerald et al.*, 205 USPQ 594.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the

and if the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
